## ACADEMIC PROJECTS

### **Baatmi App**

It is a news App used to show day to day news. It is built in flutter.

- I've used an Api for getting news.
- We can see news in carousel sliding bars.

### **Voice Assistant**

It is built using python It is a voice assistant which is used to assist us in desktop activity. I've worked on the various Python libraries.

- It can open any app in Desktop, Send WhatsApp Messages, Email to anyone.
- It can search anything for you Play songs, videos and more.

## INTERNSHIP

### **The Sparks Foundation(online)**

One month internship during S.E. (Nov. 2021 to Dec. 2021)

- Here I've work on the task provided by the team
- Made a basic banking App which can transfer money, Show transactions etc.
